EN: The top edge of the door must be perfectly leveled.
If it is not parallel, carefully adjust the five foot pads underneath until all doors open and close smoothly.

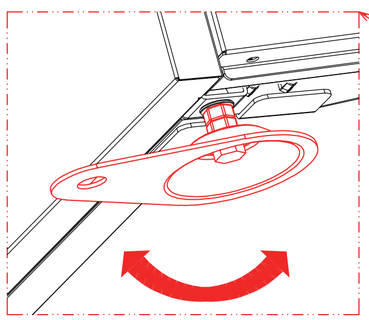

DE: Die Oberkante der Tür muss vollkommen waagerecht sein.
Wenn sie nicht parallel ist, justieren Sie vorsichtig die fünf Stellfüße darunter, bis alle Türen reibungslos öffnen und schließen.

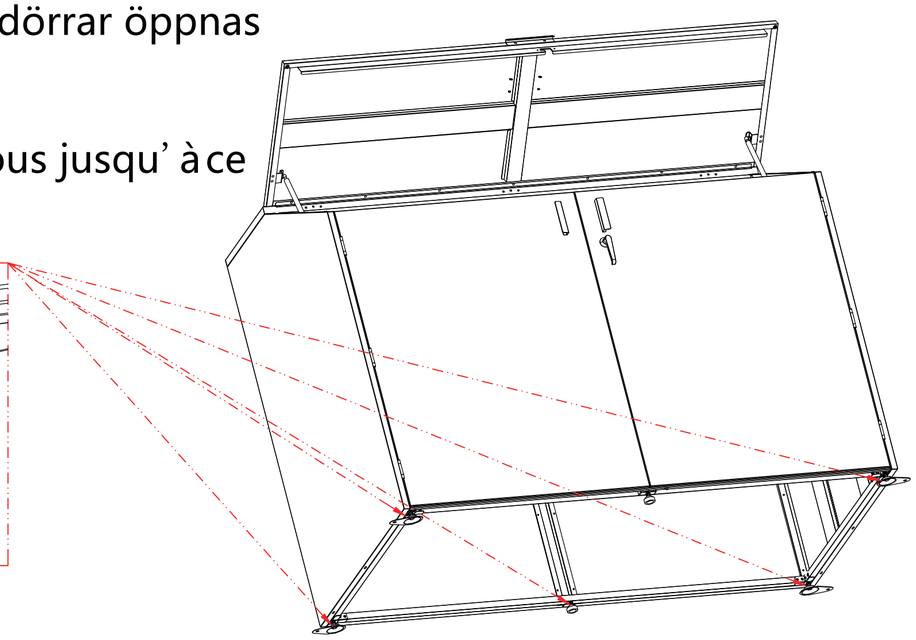

DK: Dørens øverste kant skal være helt vandret.
Hvis den ikke er parallel, skal du forsigtigt justere de fem fodpuder nedenunder, indtil alle døre åbner og lukker problemfrit.

SE: Dörrens överkant måste vara helt vågrät.
Om den inte är parallell, justera försiktigt de fem fotkuddarna undertill tills alla dörrar öppnas och stängs smidigt.

FR: Le bord supérieur de la porte doit être parfaitement horizontal.
S’ il n’ est pas parallèle, ajustez soigneusement les cinq pieds réglables en dessous jusqu’ à ce que toutes les portes s’ ouvrent et se ferment correctement.

EN: NOTE:
1:If the base plates are not needed, please ignore this step.
2:The average load capacity of the base plate must not exceed 150 kg, while the load capacity of a single item must not exceed 50 kg.

DE: ANMERKUNG:
1:Wenn die Grundplatte nicht benötigt wird, ignorieren Sie bitte diesen Schritt.
2:Die durchschnittliche Tragfähigkeit der Grundplatte darf 150 kg nicht überschreiten, während die Tragfähigkeit eines einzelnen Gegenstandes 50 kg nicht überschreiten darf.

DK: BEMÆRK:
1:Hvis bundpladerne ikke er nødvendige, kan du ignorere dette trin.
2:Den gennemsnitlige belastning på bundpladen må ikke overstige 150 kg, og belastningen for en enkelt genstand må ikke overstige 50 kg.

SE: OBS:
1:Om bottenplattorna inte behövs kan du ignorera detta steg.
2:Den genomsnittliga belastningskapaciteten för grundplattan får inte överstiga 150 kg, medan belastningen för ett enskilt föremål inte får överstiga 50 kg.

FR: REMARQUE :
1:Si la plaque de base n’ est pas nécessaire, veuillez ignorer cette étape.
2:La capacité de charge moyenne de la plaque de base ne doit pas dépasser 150 kg, tandis que la capacité de charge d’ un seul objet ne doit pas dépasser 50 kg.
